The Naloxone Distribution Project

• The Naloxone Distribution Project (NDP) is funded by State General Funds, Opioid Settlement Funds, and federal grants and is administered by DHCS. The NDP aims to reduce opioid overdose deaths through the provision of free naloxone in its nasal spray and intramuscular formulations. Entities apply to DHCS to have naloxone shipped directly to their address.

• Eligible entities include law enforcement agencies such as police departments, county jails and probation; fire, EMS and first responders; schools and universities; county public health and behavioral health departments; harm reduction organizations; and community organizations such as local opioid coalitions.

• As of February 22, 2023, the NDP has:
  ▪ Approved more than 7,000 applications for naloxone
  ▪ Distributed more than 2,100,000 kits of naloxone
  ▪ Reversed more than 135,000 opioid overdoses
